EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Vincent Pace, Applicant's Attorney, on September 29, 2004.

2. The application has been amended as follows:

In claim 3, line 2, "such as" has been deleted.

End of Amendment.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: None of the prior art references of record teach or suggest a layered inorganic-organic material having layers that form inorganic-organic periodic planar structure wherein the inorganic is a metal oxide as claimed. The most pertinent reference is the US Patent No. 6,180,956 to Chondroudis et al which suggests a layered inorganic-organic material having periodic planar structure similar to the claimed material; however, the inorganic is a metal halide, not a metal oxide as claimed. Metal halide and metal oxide are chemically and structurally distinct such that it would not have been obvious to attempt to replace one with the other and expect the same result.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on 571-272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
